#### **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and six-month periods ended April 30, 2020 and 2019 (Unaudited)

# 1. Nature of operations

Blackline Safety Corp. (the "Company") is a global connected safety technology company that develops, manufactures and markets products and services that empower businesses with real-time safety insights to manage emergency responses, evacuations and gas detection compliance programs. The Company is a public company listed on the Toronto Venture Exchange (TSXV) under the ticker symbol "BLN" and is incorporated and domiciled in Canada.

The Company's principal business office is Unit 100, 803 24 Avenue S.E., Calgary, Alberta, T2G 1P5 and the Company's registered office is Suite 2400, 525 8 Avenue S.W., Calgary, Alberta, T2P 1G1.

These condensed consolidated interim financial statements were approved and authorized for issuance by the Board of Directors on June 23, 2020.

#### 2. Summary of significant accounting policies

# a) Basis of preparation

The condensed consolidated interim financial statements and accompanying notes have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed consolidated interim financial statements have been prepared using the same accounting policies and methods of computation as the audited consolidated financial statements for the year ended October 31, 2019.

These condensed consolidated interim financial statements do not contain all the disclosures required for full annual consolidated financial statements and should be read in conjunction with the Company's audited consolidated financial statements as at and for the year ended October 31, 2019, other than as described in note 2 b).

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted for the current year.

#### b) Changes in accounting policy and disclosures

#### i) New and amended standards adopted by the Company

The Company adopted IFRS 16 *Leases* using the modified retrospective approach on November 1, 2019. The changes in accounting policies, including the opening adjustments on November 1, 2019 are disclosed in the January 31, 2020 condensed consolidated interim financial statements.

There were no new or amended standards that became applicable and were adopted by the Company for the current reporting period.

# ii) New standards and interpretations not yet adopted

Certain new and amended accounting standards and interpretations have been published that are not mandatory for April 30, 2020 reporting period and have not been early adopted by the Company.

#### **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and six-month periods ended April 30, 2020 and 2019 (Unaudited)

There are no other standards that are not yet effective and that would be expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

The Company does not hold financial liabilities at fair value through profit or loss as at April 30, 2020 and April 30, 2019.

The carrying amounts of the financial assets and liabilities are deemed to be the same as their fair values, due to their short-term nature or the interest receivable is close to current market rates.

The Company's risk exposure to various risks associated with the financial instruments is discussed in note 3 b). The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial assets mentioned above.

#### **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and six-month periods ended April 30, 2020 and 2019 (Unaudited)

# b) Financial risk management

The Company's risk management includes foreign exchange risk, interest rate risk, credit risk and liquidity risk.

#### i. Market risk

# Foreign exchange risk

The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, including U.S. dollar ("USD"), British pound ("GBP"), Euro ("EUR") and Australian dollar ("AUD"). Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities.

The Company's policy with respect to foreign currency risk management is to obtain natural hedges of revenue and expenses to the extent possible. The Company does not speculate in foreign currency and remains at risk to the market where natural hedges are not in place.

Amounts recognized in Consolidated Statement of Loss and Comprehensive Loss During the three and six-month periods, the following foreign-exchange related amounts were recognized in loss and other comprehensive loss.

	Three-month pe	eriod ended	Six-month period ended		
	April 30, 2020 \$	April 30, 2019 \$	April 30, 2020 \$	April 30, 2019 \$	
Amounts recognized in loss Net foreign exchange gain/(loss)	459,787	291,958	1,149,605	147,721	
Net gains (losses) recognized in Comprehensive Loss Translation of foreign operations	(227,813)	(180,809)	(885,427)	25,602	

## Sensitivity

The Company is primarily exposed to changes in USD/CAD, GBP/CAD, EUR/CAD and AUD/CAD exchange rates. The sensitivity of profit or loss to changes in exchange rates arises mainly from USD, GBP, EUR and AUD denominated cash and cash equivalents, short-term investments, trade accounts receivable and accounts payable.

For the three and six-month periods ended April 30, 2020 and 2019, if the Canadian dollar had weakened/strengthened by 10% against the USD, GBP, EUR and AUD with all other variables held constant, the impact on net loss for the periods would not have been significant.

#### **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and six-month periods ended April 30, 2020 and 2019 (Unaudited)

#### Interest rate risk

The Company's interest rate risk arises from its cash and cash equivalents and bank indebtedness with variable rates which expose the Company to cash flow interest rate risk. The Company's short-term investments have fixed interest rates. *Exposure* 

The exposure of the Company's cash and cash equivalents and bank indebtedness are subject to variable interest rate changes and the fixed interest rate short-term investments have contractual repricing dates of six months or less.

#### Sensitivity

The net loss of the Company is sensitive to higher/lower interest income from cash and cash equivalents and to higher/lower interest expenses from bank indebtedness as a result of changes in interest rates. For the three and six-month periods ended April 30, 2020 and 2019, if the interest rate had increased/decreased by 100 basis points, with all other variables held constant, the impact on net loss for the periods would not have been significant.

#### ii. Credit risk

Credit risk arises from cash and cash equivalents, short-term investments held with banks as well as credit exposure to customers, including outstanding trade accounts receivables.

# Risk management

Credit risk is managed consistently across the Company. The cash and cash equivalents are comprised of cash and highly liquid short-term deposits with a Canadian chartered bank, United States chartered bank and a UK plc bank. The bank indebtedness is comprised of the amount drawn on the Company's demand operating revolving loan facility with a Canadian chartered bank. The Company only deals with highly rated financial institutions.

The Company assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings with compliance with credit limits regularly monitored.

Sales to retail customers are required to be settled in cash or using major credit cards, mitigating credit risk. A significant portion of the Company's trade receivables are with customers in the oil and gas industry and are subject to normal credit terms.

#### iii. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. At the end of the reporting period, the Company held cash and cash equivalents of \$14,469,237 (October 31, 2019: \$13,636,427) that are expected to readily generate cash inflows for managing liquidity risk. Due to the dynamic nature of the underlying business, the Company maintains flexibility in funding by maintaining availability under a committed credit line.

Management maintains a forward-looking cash requirement forecast, comprising cash and cash equivalents, short-term investments and a demand operating revolving loan facility with a Canadian chartered bank. This ensures that funds are readily available to meet financial obligations as they become due, as well as ensuring that adequate funds exist to support business strategies.

#### **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and six-month periods ended April 30, 2020 and 2019 (Unaudited)

The Company has financed its activities primarily through cash flows from operations, funds from brokered and non-brokered private placements, a bank demand operating revolving loan facility and government assistance in the form of repayable debt. The ability to sustain operations is dependent on successfully commercializing its products, continuing to increase sales of the Company's products and services and, if required, the ability to raise additional equity through financing. The Company has sufficient funds and access to capital for at least the next 12 months.

#### Maturity of financial liabilities

The tables below analyze the Company's financial liabilities into relevant maturity groupings based on their contractual maturities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 24 months equal their carrying balances as the impact of discounting is not significant.

## 4. Government assistance

#### a) TECTERRA Inc. Funding

The Company has a compensation and funding agreement with TECTERRA Inc. ("Tecterra"), an Alberta provincial technology organization which supports the development and commercialization of geomatics solutions. Under the terms of the agreement, the Company receives funding for the development of a certain geomatic product. The agreement contains security in the form of a first security interest (subject only to any security interest and charge granted by the Company to its principal bank) on all present and after acquired property of the Company for the performance of its agreement obligations. The funding received is fully repayable by the Company on a quarterly basis with the amounts of each quarterly payment based on the lesser of a percentage of sales of that product or 20% of the funding amount. The Company shall commence repayment at the end of the calendar quarter in which the first sale of the product for which funding has been provided occurs.

On June 16, 2017, the Company entered into a funding and compensation agreement with Tecterra whereby up to \$500,000 in funding was made available to the Company, interest free, for the creation and development of a new product. The Company has received all \$500,000 of the available funding under this agreement (October 31, 2019: \$500,000).

#### **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and six-month periods ended April 30, 2020 and 2019 (Unaudited)

As at April 30, 2020, the Company has repaid \$401,580 (October 31, 2019: \$211,207) of the amount received. Of the total amount outstanding as at April 30, 2020, \$98,420 (October 31, 2019: \$288,793) is estimated to be repayable within 12 months of the period end date and classified as a current liability.

# b) Canada Emergency Wage Subsidy

On April 11, 2020, the Government of Canada enacted the Canada Emergency Wage Subsidy ("CEWS") that is available to any employer, subject to eligibility criteria, whose business has been adversely affected by COVID-19.

The Company received wage subsidy funding of \$1,047,322 for the three and six-month periods ended April 30, 2020 (Three-month period ended April 30, 2019: \$nil and six-month period ended April 30, 2019: \$nil), which has been recorded as a reduction in related payroll expenses in the Consolidated Statements of Loss and Comprehensive Loss.

As at April 30, 2020, \$1,047,322 (October 31, 2019: \$nil) is included in trade and other receivables on the Consolidated Statement of Financial Position.

#### 7. Segment information

The Chief Executive Officer is the Company's chief operating decision-maker. Management has determined the operating segments based on the information reviewed by the Chief Executive Officer for the purposes of allocating resources and assessing performance.

The Chief Executive Officer considers the business performance from a product and service perspective. The product revenues are driven by sales of the Company's suite of safety products with the service revenue generated by the monitoring and the support of those products. There are no sales between segments and revenue from external parties is measured in a manner consistent with that in the consolidated statement of loss.

The Chief Executive Officer regularly reviews the following for each reportable segment:

_	Product

#### 8. Related party transactions

The Company purchased consulting services from an entity controlled by a related party of a member of key management personnel on normal credit terms and conditions in the amounts of \$nil and \$nil for the three and six-month periods ended April 30, 2020, respectively (Three-month period ended April 30, 2019: \$8,156 and six-month period ended April 30, 2019: \$20,531). As at April 30, 2020, the amount of \$nil (October 31, 2019: \$15,356) was outstanding in accounts payable and accrued liabilities in relation to transactions with that related party.

#### 9. Stock-based compensation

The Company has established a stock-based compensation plan ("stock option plan" or the "plan") which was reapproved by shareholders at the prior year annual general meeting. The purpose of the stock option plan is to provide long-term incentives for directors, officers, employees and consultants of the Company to deliver long-term shareholder returns.

Participation in the plan is at the Board of Directors' discretion and no individual has a contractual right to participate in the plan or to receive any guaranteed benefits. The plan allows for the purchase of one common share for each option granted, at a fixed price not less than the fair market value of the stock at the time of grant, subject to certain conditions being met.

Options granted under the plan vest over an immediate to three-year period. For those options which vest immediately, they remain exercisable for a period of five years and for those options which vest after three years, the options remain exercisable for a period of two years after vesting.

Options granted under the plan are for no consideration and carry no dividend or voting rights. When exercised, each option converts into one common share.
