RENTAL EQUIPMENT & SERVICES

Protect crews and keep projects moving.

Keeping people safe, on schedule and within budget on short-term projects can be a challenge. Blackline Safety's rental program can help. Our flexible solutions give you instant access to a full range of industry-leading and easy-to-use connected gas detectors and lone worker wearables, area monitors, and accessories. And they're all powered by **Blackline Live**, our online monitoring and reporting software. Whether you need one device or one thousand, we've got your back.

Adjust on the fly with plan flexibility

- Choose daily, weekly or monthly rental options.
- Cancel anytime without penalty.
- Adjust inventory as project needs change with on-demand equipment.
- Get same-day shipping or walk-in pickup.

Tighten up cost control

- Pay only for the time and devices you need.
- Locate misplaced devices easily with built-in GPS, minimizing replacement costs and downtime.
- Reduce maintenance and maximize time-on-tool. Receive a 5% surplus in rented devices to prevent downtime during servicing, misplacement or increased need.
- Get online, built-in reports (incl. compliance) with no IT or set-up costs.

Focus on the job, not the equipment

- Get up and running with the push of a button.
- Train quickly with intuitive, easy-to-use devices.
- Stay current and compliant with automatic over-the-air updates—no docking required.
- Configure or reconfigure devices instantly with automatic updates.

Harness next-level service

- Partner with our team to design a customized rental program.
- Access optional 24/7 live monitoring from our in-house Safety Operations Center or Alarm Receiving Centre.
- Gain deeper operational insights with personalized data analytics services.

Blackline has rental centers in North America, United Kingdom, Europe and Middle East with over \$20M in rental assets available.

PORTFOLIO overview

G6 SINGLE-GAS connected wearable

- H2S, CO, O2 and SO2 sensor options
- 4-year lifespan with full warranty
- Rechargeable battery – lasts 1 year / charge
- Locate people and lost devices
- Reduced false alarms with high STEL precision
- Over-the-air firmware and configuration updates
- Direct-to-cloud data streaming
- Large, color display and graphic interface

G7c CELLULAR & G7X SATELLITE connected wearables

- Gas monitoring (multi-gas diffusion and pump)
- Emergency SOS latch
- Zero network range limitations
- Two-way voice and messaging capability
- Optional push-to-talk functionality
- Over-the-air firmware and configuration updates
- Direct-to-cloud data streaming
- Assisted GPS for location tagged gas readings, alerts

EXO area monitor

- Direct-to-cloud cellular connectivity, with optional satellite module for remote locations
- Detection for up to 8 gases, with over 20 gas sensors to choose from
- Optional integrated gamma radiation sensor
- Drop-and-go deployment
- Up to 100 days of battery life
- Optional four-channel pump module for active sampling
- Emergency SOS latch
- Automatic bump and calibration service
- Built for extremes to perform in any condition

ACCESSORY products

G7 wearables

- G7 Bridge (for G7x)
- Location beacon
- G7 Dock
- G7 PowerPack
- Demand flow regulator
- Charge panel, 5 unit and 20 unit options

EXO area monitor

- Universal mount
- Rail mount
- Solar panel
- Siren
- Replacement battery
- Survey tripod
- Standoff (low) tripod
